

# LE CHEMIN DE LA VICTOIRE

un film de Clotilde Zimille-Tran

## DIRECTOR'S NOTE

I wanted to talk about the theme of envy and jealousy through a subject that speaks to everyone: sport and competition.

The feeling of comparing ourselves to others all the time and putting a lot of pressure on ourselves to improve, without ever being satisfied with ourselves, is something that concerned me, whether at school, in sports or in the artistic world. I wanted to show how toxic this feeling could be, how it could isolate us and kill the pleasure our passion gave us.

I practiced taekwondo for 9 years and participated in many competitions, so it was natural for me to represent this sport in my film without a second thought.

I also wanted the story to have a light touch by showing the ridiculousness of the protagonist's obsession. The exaggeration of her reactions creates a comic spring. This lightness will also be obtained by the graphic treatment of the characters which will have a simple and cute character design and by a rather cartoonish animation of the characters' movements and reactions.
