ABOUT THE DIRECTORS

Théo and Léa are a French duo of young animators, directors and visual development artists based in Paris and Vaires-sur-Marne.

They met at their former school, Estienne (ESAIG) during their B.T.S in graphic design. From here they started sharing their taste for movies, animation and illustration. Learning from each other, despite diverging graphics identities and references, pushing both of them out of their comfort zone and finding a complementary graphic universe.

Shortly after that, they both joined the preparatory class of the Atelier de Sèvres followed by the first year of ASA school in animation. They start working and directing together sharpening their visual identity.

In 2022 they directed their Graduation movie « HADES ».
