# PITCH

In a world plunged into darkness by demonic forces,  
human soldiers fight to bring back the light. Only one warrior emerges victorious.  
But what is the price of such a quest?

# SYNOPSIS

Viviane, warrior of the human forces, fulfills her ultimate quest and saves the world from the hydra and its horde of evil demons. She brings back the light on the world.

She is the last survivor of this titanic battle, she finds herself alone, without a goal. She decides to start a long journey to find her family in her native village.

But when she arrives in her village she realizes that time has passed much more than she thought and that the last survivor of her family is Colin, her baby brother who has become an old man.

Despaired by this discovery, she runs away. But Colin finds her and helps her to accept these changes. He will make her understand that she has to find a new purpose in her life.

## ABOUT THE DIRECTORS

Alexis, Armand, Florian, Marine, Tom, Valentin et Vincent met at Gobelins, where they studied for four years.

They quickly find common points in their graphic styles and in their love for fantasy and video games.

They then began to collaborate on several projects. Some of them work together to make the FX movie and the opening of the Annecy Festival 2020.

With this graduation film, it is the will to tell a story of an epic quest that brings them together, but also the wish to talk about time passing and the sacrifices made for a goal.

Now graduated, they hope to continue to collaborate together and perhaps work on expanding the universe of this short film.
