## PITCH

Thibaut, an alchemy apprentice, is finally starting his graduate internship. His master, slightly eccentric, brings him to a dubious looking-dungeon...

## SYNOPSIS

As part of his graduate internship, Thibaut follows his master in his quest for the Philosopher's Stone. Introverted and clumsy, he is quickly overwhelmed by the reality on the ground and his completely oblivious, albeit very skillful, master. His dream of professional exploration having turned into a nightmare filled with a narcissistic alchemist, goblins, tentacles and other hungry monsters, Thibaut must confront his fears and roll up his sleeves if he wants to escape the dangers lurking deeper down.
